

Question Type	Description
Multiple Choice	Ask your respondent to choose one answer (or multiple answers) from your list of answer choices.
Dropdown	Provide a dropdown list of answer choices for respondents to choose from. Use the dropdown question when you need to ask a multiple choice, single answer question but want to save space.
Matrix/Rating Scale	Use a Matrix/Rating Scale question if you want respondents to evaluate one or more row items using the same set of column choices. You can set the matrix question to collect multiple answers or only one answer per row. You also have the option to turn the matrix question into a rating scale when you want to assign weights to each answer choice.
Matrix of Dropdown Menus	Ask respondents to evaluate several items using the same set of measurements. They can choose an answer from a preset list of answer choices presented in a dropdown menu.
Ranking	Ask respondents to rank a list of options in the order they prefer using numeric dropdown menus or drag-and-drop.
Net Promoter® Score	Ask your customers the Net Promoter® Score question to measure customer satisfaction with your organization, brand, product or service. We'll calculate your score automatically when you analyze your results.
Single Textbox	Add a single textbox to your survey when you want respondents to write in a short text or numerical answer to your question. You can also specify answer length, and require and validate a number value, date format, or email address.
Multiple Textboxes	Collect multiple short text or numerical answers with a single question. You can also specify answer length, and require and validate a number value, date format, or email address.
Comment Box	Use the comment or essay box to collect open-ended, written feedback from respondents.

Contact Information	Use this question type to collect a respondent's relevant contact information, including name, address, email, and phone number.
Date/Time	Ask respondents to enter a specific date and/or time.
Text	Insert additional text to your survey design to provide extra context or description to your respondents.
Image	Insert an image into your survey by uploading an image file or specifying the URL of an image on the web.
Text A/B Test	Learn how respondents react to two or more different text passages. Enter the text variables you want to compare, then specify the percentage of respondents who see each message.
Image A/B Test	Learn how respondents react to two or more different images. Provide the images to compare, then specify the percentage of respondents who see each one.
